

Prayer – Neutralising and Clearing Malice and Harm

To open to this prayer connect now to your breath and with your breath begin to call light to yourself on the in-breath from the Universe, from the sun and stars. On the out-breath release anything that does not serve you. In this way you slowly and surely raise your vibration. In this way you are reaching to the higher planes to align with your Higher Self and all helpful forces in the Universe that serve the light. And so...

I call upon my Higher Self, Guides, Angels, and Ascended Beings of light to protect me with a shield of light during this prayer. I call upon all Galactic assistance, all helpful Stellar races to clear all dark ET interference. I call on Archangels of the sun to create a column of protective solar light around me. To guard me this day as I move through this earth-plane. I call upon angels of diamond-violet-ultraviolet fire to hold me, cleanse me and protect me from all lower frequencies.

I call upon all spiritual support to purify the space around me of any and all low frequency disturbances. I call upon all spiritual support to fill this space around me with light.
